

Bayan Kalash

Software Engineering Student | Full-Stack Developer (Laravel / PHP / JavaScript)

bayankallash@gmail.com | +970 599 756 244 | Gaza Strip, Palestine | github.com/bkallash | Open to remote worldwide
Arabic (Native) · English (C1 Advanced)

PROFESSIONAL SUMMARY

Third-year Software Engineering student and full-stack developer with a portfolio of production-style web applications in Laravel (PHP), Livewire, and MySQL — from AI-powered form builders to multi-role marketplaces and social apps. Delivers complete projects end-to-end: database design, RESTful APIs, authentication, responsive UIs, and Git/GitHub workflows. Strong problem-solving skills and clear technical communication in English (C1). Seeking full-stack or backend roles where hands-on delivery and code quality matter.

SELECTED PROJECTS

Form Generator v2.0

Personal Project

Laravel 12 · Livewire 3 · MySQL · Google Gemini AI · github.com/bkallash/form-generator

- Built a full-stack form platform with drag-and-drop builder, public share links, CSV export, conditional logic, and multi-page layouts.
- Integrated Google Gemini AI for chat-based form creation, sentiment analysis, anomaly alerts, and dashboard health digests via queued background jobs.

Local Services Marketplace

Personal Project

Laravel · MySQL · Blade · github.com/bkallash/local-services

- Developed a multi-role platform (client, service provider, admin) with service listings, order workflows, dashboards, and admin reporting.
- Implemented role-based authentication, profile management, and admin modules for users, categories, services, and orders.

TASKMASTER · Simple Twitter · Finance Tracker

Personal Projects

Laravel task manager with projects & activity logs · Dockerized social app (Laravel 12) · JavaFX desktop finance app with MySQL reports

EDUCATION

B.Sc. Software Engineering

Sep 2022 – Present

Islamic University of Gaza — Gaza Strip, Palestine

- Coursework: software architecture, data structures, algorithms, databases, OOP, and web engineering; EQF Level 6 / ECTS-compatible programme.

CERTIFICATIONS

Advanced Laravel Bootcamp — UCASI (Verified)

May 2026

- Advanced PHP/Laravel: MVC, Eloquent ORM, middleware, authentication, and API development — completed alongside full-time studies.

TECHNICAL SKILLS

Backend	PHP, Laravel, Livewire, MVC, Eloquent ORM, RESTful APIs, MySQL, Authentication & Middleware
Frontend	HTML5, CSS3, JavaScript (ES6+), Blade, Bootstrap, Responsive UI Design
Tools	Git, GitHub, Docker, Java, JavaFX, Linux CLI, VS Code, Agile / Scrum, Problem Solving, Algorithms
