

Bayan Kallash

Software Engineering Student

bayankallash@gmail.com | [+970 599 756 244](tel:+970599756244) | Gaza Strip, Palestine
[GitHub](#) | [Portfolio](#) | Arabic (Native) · English (C1, CEFR self-assessment)

ACADEMIC PROFILE

Software Engineering student with a CGPA of **90.57%** and a solid grounding in algorithms, data structures, software architecture, databases, and web engineering. Complements formal study with independent full-stack projects that apply analytical thinking and careful system design. Works well in English-medium academic settings and collaborative coursework, with clear technical communication and a steady approach to learning.

EDUCATION

B.Sc. Software Engineering

Sep 2022 – Present

Islamic University of Gaza, Gaza Strip, Palestine

Cumulative GPA: 90.57%

- Bachelor's programme covering software architecture, data structures, algorithms, databases, OOP, and web engineering.
- First-cycle study (EQF Level 6 equivalent) with coursework suitable for ECTS credit recognition subject to host-institution evaluation.
- Maintained strong academic standing through collaborative technical coursework, with consistent self-management and learning discipline.
- Extended practice beyond required modules through advanced Laravel training and an independent project portfolio.

ACADEMIC & APPLIED PROJECTS

Form Generator v2.0

Independent Project

Laravel 12 · Livewire 3 · MySQL · Google Gemini AI · github.com/bkallash/form-generator

- Full-stack form platform applying MVC architecture, relational modelling, authentication, and interactive UI design.
- Integrated Google Gemini AI for assisted form creation and analytics, combining emerging tools with structured problem solving.

The Margin

Independent Project

Laravel 13 · Tailwind CSS · MySQL · AI vector search · Pusher · github.com/bkallash/the-margin

- Knowledge-publishing platform with authoring, social features, moderation, and real-time notifications.
- Hybrid semantic search with vector embeddings, linking information-retrieval ideas to practical software delivery.

CERTIFICATIONS & FURTHER TRAINING

Advanced Laravel Bootcamp, UCASI

May 2026

- Advanced PHP/Laravel: MVC, Eloquent ORM, middleware, authentication systems, and API development, completed alongside degree studies.

LANGUAGE COMPETENCES (CEFR)

Arabic Native: full professional and academic proficiency in written and spoken communication

English C1 Advanced (CEFR self-assessment; no formal certificate yet): Listening, Reading, Spoken Interaction, Spoken Production, and Writing at C1; able to follow lectures, seminars, group projects, and academic writing in English

DIGITAL & TECHNICAL COMPETENCES

Core CS Algorithms · Data Structures · Software Architecture · OOP · Databases · Problem Solving

Languages PHP · JavaScript (ES6+) · HTML5 · CSS3 · SQL

Engineering Laravel · Livewire · RESTful APIs · MVC · MySQL · Git/GitHub · Docker · Linux CLI

Learning Self-directed study · Technical documentation · Version-controlled academic and project workflows

ADDITIONAL COMPETENCES

Academic performance

Strong results (90.57%) with the ability to move from theory to working systems in a structured way.

Resilience & independence

Kept academic and project work on track in demanding conditions, with reliable self-management.

Social responsibility

Interested in building inclusive, responsible digital solutions that serve wider communities.

Intercultural awareness

Open to studying and collaborating in diverse academic settings, with respect for different cultures and institutions.

Teamwork & communication

Comfortable with collaborative project work and clear technical English in seminars and group assignments.

International study interest

Interested in credit-bearing study abroad that strengthens software engineering, research methods, and academic exchange.
