

Bayan Kallash

Software Engineering Student · Candidate for Academic Mobility (Erasmus+ / Exchange)

bayankallash@gmail.com | +970 599 756 244 | Gaza Strip, Palestine
GitHub | Portfolio | Arabic (Native) · English (C1 — CEFR self-assessment)

ACADEMIC PROFILE

High-achieving Software Engineering student (CGPA **90.57 / 100**) with a rigorous foundation in algorithms, data structures, software architecture, databases, and web engineering. Combines strong academic performance with independent full-stack projects that demonstrate applied research, analytical thinking, and end-to-end system design. Prepared for European higher-education mobility: academically motivated, digitally fluent, interculturally open, and ready to engage fully in English-medium coursework, collaborative learning, and ECTS credit recognition.

EDUCATION

B.Sc. Software Engineering Sep 2022 – Present
Islamic University of Gaza — Gaza Strip, Palestine
Cumulative GPA: 90.57 / 100

- Accredited bachelor's programme covering software architecture, data structures, algorithms, databases, OOP, and web engineering.
- Aligned with European first-cycle (EQF Level 6) structures; coursework prepared for ECTS-compatible credit transfer upon host-institution evaluation.
- Sustained excellent standing through collaborative technical coursework under significant infrastructural constraints — resilience, self-management, and learning discipline.
- Deepened practice alongside studies via advanced Laravel training and an independent production-style project portfolio.

ACADEMIC & APPLIED PROJECTS

Form Generator v2.0 Independent Project
Laravel 12 · Livewire 3 · MySQL · Google Gemini AI · github.com/bkallash/form-generator

- Full-stack form platform demonstrating MVC architecture, relational modelling, authentication, and interactive UI engineering.
- Integrated Google Gemini AI for assisted form creation and analytics — emerging technologies, research curiosity, and complex problem decomposition.

The Margin Independent Project
Laravel 13 · Tailwind CSS · MySQL · AI vector search · Pusher · github.com/bkallash/the-margin

- Knowledge-publishing platform with authoring, social features, moderation, and real-time notifications — systems thinking with user-centred design.
- Hybrid semantic search with vector embeddings, combining information-retrieval concepts with practical software engineering delivery.

CERTIFICATIONS & FURTHER TRAINING

Advanced Laravel Bootcamp — UCASI (Verified) May 2026

- Advanced PHP/Laravel: MVC, Eloquent ORM, middleware, authentication systems, and API development — completed through self-directed professional development alongside degree studies.

LANGUAGE COMPETENCES (CEFR)

Arabic **Native** — full professional and academic proficiency in written and spoken communication
English **C1 Advanced** (CEFR self-assessment; no formal certificate yet) — all five skills at C1; ready for English-medium lectures, seminars, group projects, academic writing, and assessment

DIGITAL & TECHNICAL COMPETENCES

Core CS Algorithms · Data Structures · Software Architecture · OOP · Databases · Problem Solving
Languages PHP · JavaScript (ES6+) · HTML5 · CSS3 · SQL
Engineering Laravel · Livewire · RESTful APIs · MVC · MySQL · Git/GitHub · Docker · Linux CLI
Learning Self-directed study · Technical documentation · Version-controlled academic and project workflows

COMPETENCES RELEVANT TO ERASMUS+ MOBILITY

Academic excellence & learning agility
High performance (90.57/100) with proven ability to master demanding curricula and turn theory into working systems.

Resilience & independence
Maintained excellence and project delivery under exceptional adversity; self-management suited to study abroad.

Active citizenship
Committed to inclusive, responsible digital solutions that benefit wider communities.

Intercultural openness
Prepared for multicultural European learning environments; respectful, curious, and adaptable across contexts.

Teamwork & communication
Collaborative agile project work and clear technical English; ready for seminars, group assignments, and peer learning.

European mobility readiness
Motivated for ECTS credit-bearing study abroad deepening software engineering, research methods, and international academic experience.
